KEY BENEFITS

STAY CONNECTED 24x7

- Connect to Acumatica in real-time so you always have access to the latest information

GET MORE FROM YOUR DEVICES

- Integrate with your mobile devices to leverage unique capabilities, such as camera or fingerprint reader
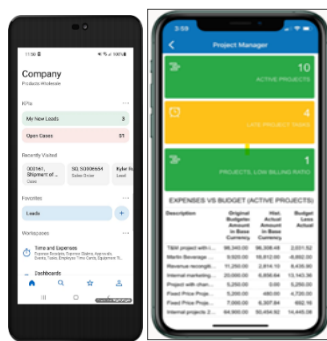

MINIMIZE DATA RE-ENTRY

- Synchronize all data updates and changes you make in the mobile app with Acumatica automatically

INNOVATE

- Extend the functionality in the mobile app using Acumatica's Mobile Application Framework along with tools and languages your developers already use
- Develop advanced mobile solutions for your ERP on the Acumatica framework
- Configure favorites, workspace, and personalized KPIs on the Personal Mobile Workspace

MOBILE ERP APPLICATIONS FEATURES AND CAPABILITIES

Time Reporting	Update Acumatica immediately from anywhere, at any time with mobile time card entry.
Approvals	Review and complete approvals for time, expense, and sales orders in just a few clicks.
Task Management	Create an event in the mobile app and edit it in Acumatica CRM at any time.
Available on iOS and Android	Increase employee productivity by letting your staff work on the devices of their choice.
Free Download	Download the iOS or Android app from the Apple App Store or Google Play at no cost.
Mobile Push Notifications	Automatically notify users of business events via the mobile app. For example, the app can notify salespeople of new opportunities.
Navigation Tabs	Navigate to the most used detail lists by tapping or swiping on the mobile form. For example, users can swipe to view Summary, Details, and Settings on an order form.
Upload Images Using a Mobile Device	Use the web interface to capture and upload images with a registered mobile device. Capture an image of a receipt and Acumatica automatically creates the expense receipt using AI with Machine Learning. Capture client signatures and attach them to documents.
Personal Mobile Workspace	Displays favorites, workspace, and KPIs to support user preferences and priorities.
Signature Capture	Capture customer signatures on the mobile app and attach them to documents.
